## An Unexpected Error Has Occurred

**We apologize for the error.** An email with your issue has been sent to our admin team. In the meantime, check these hints on what to do:

For additional support, click the "Help" link atop this or any page or fill out a [trouble ticket](#) describing what happened.

- **DID YOU GET HERE FROM A LINK OUTSIDE RCU?** If so, it's likely the link is bad. Start at the [home page](#).
- **IF YOU WERE BROWSING RCU OR CREATING A POST, RETRY!** Click the "Refresh" or "Reload" button on your browser and try again. That fixes some errors.
- **SEARCH ERRORS.** If you got this error performing a search on the site, it is possible that you entered a term like "any", or "all" or something generic that the search tool "choked" on. If so, try to be more specific or use the pulldown menus to narrow your search. [Click here](#) to return to the page you were on.
- **URL COPY AND PASTE ERRORS.** If you pasted a URL string into your browser to get to a page, be careful that it is a COMPLETE STRING. Otherwise you will get errors. Your best bet is to click into the page.
- **CLUBS AREA ERRORS.** If you were having trouble in the Clubs area, we are working on those issues now.
- **POP UP BLOCKER ISSUES.** If you have a pop-up blocker, set it to allow pop-up windows from this site. **We DO NOT have pop-up ads.** All windows that pop up do so only when you activate them and they serve to provide you with functionality - NOT ADS.
- **SECURITY ISSUES.** Check your firewall/Internet security settings. Make sure RCU is on the trusted list. There is no adware or similar software anywhere on our servers.

Please be aware that we are working on all issues. For additional support, click the "Help" link atop this or any page or fill out a [trouble ticket](#) describing what happened.
