

## Great Planes Sequence

See unlimited pattern performance in a whole new light!

Engineered for crisp response, smooth handling and straight-as-an-arrow tracking, the ElectricFly Sequence Pattern ARF boasts a brilliant six-color MonoKote trim scheme with bold graphics on the wing bottom to make it easy to spot in the air. Easy to assemble, the Sequence's motor box is prebuilt – no measuring or cutting required. The cowl ring and magnets are factory aligned and installed for easy and smooth, uncluttered lines. Like the cowl, the canopy/battery hatch attaches with factory-installed magnets, lifting off easily for effortless battery changes. Common on custom-built pattern ships, airfoiled tail surfaces improve both tracking and handling precision and are standard on the Sequence. Ailerons are factory-hinged for added convenience.

- Wing Span: 50.0" (1270 mm)
- Length: 51.5" (1308 mm)
- Wing Area: 505 in.<sup>2</sup> (32.6 dm<sup>2</sup>)
- Weight: 3.5-3.75 lb. (1590-1700 g)
- Battery: 4S pack (guessing around 3000 mAh)
- Motor: 899kV BL Outrunner
- magnetic hatch
- magnetic cowl
- airfoiled tail
- \$199
