CIRRUS SR22

Special **THANKS** to Chris Keegan, for the Columbus "Fly-Over".

The "Glass Cockpit" in the CIRRUS SR22 is a sight to see, sometime you get more interested in the displays than looking to see what going on outside.

Kyle & Amanda Franklin –Air Show Crash, Brownsville, TX—March 12, 2011

*My thoughts and prayers are with
Kyle and Amanda Franklin,
there family and friends*

WACO UPF-5 Private's Plane Wing Walking

OHIO AIR NEWS *We Need Your Help*

COMMEMORATIVE AIR FORCE

Spirited and dedicated volunteers: that describes members of the Ohio Valley Wing. You can join too! We restore and fly World War II aircraft. We honor those who built them, kept them flying, and flew them. And we have fun and good company all along way. Attending airshows and operating the Wing's PX truck are just part of membership in the Wing. The stories told and the stories made during OVW activities are often the real excitement. And who can top watching warbirds fly, or speaking to those who flew them in combat, or even taking a flight in one yourself?

If your interested contact [Charles Johnson](#)

Dixie Wing of the CAF provided aircraft for several Air Events in the Central Ohio area, each time this happens there is a need for ground support personnel, there's no pay but it an "Experience of a Lifetime" and a great photo-op for you and your family.
