Telex: 293595 MIDWEST IDAG

Dear Byron Originals Customer:

Thank you very much for your order. Prior to Fun Fly '84 held here in Ida Grove August 17, 18 and 19, a special squadron of airplanes were produced for what was to become the most realistic recreation of a World War II Battle ever produced in the history of model aviation.

This squadron became known as Byron Originals 1/5 Air Force and included not only our P-51 Mustangs and P-47 Thunderbolts but specially designed B-25J Mitchells with no less than 13 1/2 foot wingspans. The highlight of Fun Fly '84 was "Striking Back" where the 1/5 Air Force engaged in furious dogfights with Japanese Zeros and staged devastating strafing and bombing runs on a Japanese ground installation consisting of a 400 foot "mountain range" complete with 1/5 scale locomotive, tanker cars, rail tunnel and bridge, hangar, parked Zeros and oil refinery with fuel depot and more.

This exciting battle was climaxed by a flag raising ceremony, Iwo Jima style, accompanied by the National Anthem as the 1/5 Air Force patrolled the island from above!

This patriotic show was so moving and entertaining that an even greater "Striking Back" presentation is scheduled for Fun Fly '85 to be held here August 16, 17 and 18. We urge you not to miss this exciting large scale Fun Fly.

In commemoration of "Striking Back" and the Byron Originals 1/5 Air Force, we have enclosed a pressure sensitive decal for your use. Also enclosed is a 1/5 Air Force Patch and Embroidered "Striking Back" bar. We urge you to sew these on a jacket or shirt and wear them in commemoration of "Striking Back" and those brave Americans that secured the Pacific during World War II. We have 1/5 Air Force T-shirts available for \$ 7.00.

Also, we urge you or your club to inquire about our soon-to-be-released video tape that highlights Fun Fly '84 and "Striking Back". Truly a historical display of radio control model aircraft and a perfect program for home entertainment or club meetings.

Again, don't miss Fun Fly '85 August 16, 17 and 18. For you jet enthusiasts, our second annual Jet Rally is scheduled for June 22 and 23 -- a must for ducted fan modelers.

Sincerely,

BYRON ORIGINALS
