***Quality at a fair honest price. Making a good ring is a Skill.
Making a fine ring is an Art!***

Reproduction Model Engine Rings

Due to work obligations of my daytime job I may not be able to answer phone calls or emails right away. Please leave me a detailed message and I will get back to you as soon as possible.

Last Revised 4/22/17

I will reproduce nearly any model engine ring. If not available, I'll need a good piston and cylinder to measure, or send the entire engine. ***If you prefer to use your own measurements we will make a ring however, we cannot guarantee the accuracy of the fit.*** Send return postage, insurance is extra. For orders outside of USA, ask for shipping costs. Priority postage is extra. Ring cost & shipping charges for USA listed below.

Please Note:

If you send me an engine for new rings that I don't currently make there will be No labor charge to do this.

If you send me the stripped-down engine block (block, piston liner and rod assembly) for rings, that I do currently make ***\$50/HR, minimum charge is (1/2)hour.***

ATTENTION: NEW MEXICO CUSTOMERS WE HAVE TO CHARGE YOU 7.6250% TAX, please add the extra tax to your orders.

Shipping per order in US \$4.50 First Class. Priority in USA only \$6.50, both with delivery confirmation. For out of US shipping charges (Canada \$12, overseas \$15) other than First Class email for more options. US Dollars, or PayPal. If using PayPal there will be a 3.06% + \$0.30 charge US Customers, 6% outside US.

For PayPal payments use my email address, I will invoice you thru PayPal. I also accept Checks or USPS Money Orders if they are from a US Bank, please notify by email if sending payment by check.

* We are adding new rings to our data base every day if you do not see your specific ring please contact us. I also make special rings to order, ask for pricing. *
